

# FOLIO

Dual-Purpose Computer Desks

*Let us change the way you teach*

dual-purpose desks  
**that work**

No need to buy new PCs

No need to buy new screens

Folio Dual-Purpose Desks can accommodate most of the screens and PCs in today's market

Folio also provide desks for All-In-One PCs including iMac, Lenovo, Dell, Acer and many more.

All you have to do is ask

# Folio Dual-Purpose Computer Desks

Folio offer you the most up to date Dual-Purpose Computer Desk that will transform your standard classroom into a modern IT classroom in a matter of minutes.

Whether you're planning a new build or refurbishment our first step is to listen to your ideas and what you want to achieve.

Folio will work directly with you or your architect or consultant.

Folio have been supplying desk and library furniture in schools, colleges and universities for 25 years.

From your initial call we will arrange a site visit to your school, college or university. We will bring a working desk along so we can show all the members of your team the benefits of using our desk in your new project.

Folio offer at this stage a FREE design and quotation service, we will sit down and discuss the way you want to use your room and offer you some different options of room layouts. We will then forward to you different options and quotations for your room for your appraisal.

If you choose to use Folio the final details will be agreed along with colours and sizes. We will work with you to make sure you get the best solution for your classroom and that it is all delivered and installed to your timescale.

It is that simple, all you have to do is call.

**Client:** University of Oxford  
**Refurbishment of Isis Room**  
**Install Date:** 15th September 2014

## The Sixpence Desk

After carefully considering a number of potential suppliers, we chose Folio Desks for the following reasons:

- The 'sixpence' desk design is innovative, being simple in concept, elegant in operation and easy to maintain.
- Folio listened to our requirements and were keen to implement modifications to the design to meet our needs.
- The build quality was excellent.
- The cost was competitive.
- We were able to negotiate delivery and installation to fit with our tight schedule.
- Post – delivery support is readily available.

Since installation, the desks have attracted very favourable comments from our users. We will most definitely be considering using Folio again for future upgrades and refurbishments of our teaching rooms and learning spaces.

*David Baker - Academic IT Services, Teaching Manager*

**Client:** Hopwood Hall College  
**9 classrooms refurbished**  
**Time on site:** 1 week  
**Install Date:** 15th August 2014

During the design and planning process of our summer works programme in 2014 it became clear that a healthy balance of classroom-based and IT-based teaching and learning had not been achieved in previous years. The teaching and learning teams across the college were looking for a hybrid solution within a single space that could be used for both classroom-based and IT-based sessions seamlessly.

After much consultation and market testing, we established that Folio offered a dual purpose classroom desk that concealed IT equipment in order to convert a classroom into an IT-based facility in seconds. This was a highly attractive option to the college and offered a flexible teaching and learning environment across a number of areas within the organisation.

A total of nine rooms were fully refurbished using the desks and there is no doubt that these will be utilised in future projects for years to come.

A successful and extremely functional environment has been created as a result of the state-of-the-art products offered by Folio.

*Gareth Tuxworth - Project Manager*

# Folio Dual-Purpose Computer Desks can be used all over your school in many different locations

## West Buckland School

Having considered various alternatives we decided to use Folio as they provided a very cost effective and flexible solution for the ICT suite in our new Art & Design Technology facility. The desks look smart and compliment the futuristic building. They are also simple to use and give us more options for the use of the room when required.

*Roger Jackson - Bursar West Buckland School*

# Training Centres

QA are the UK's leading IT training provider, with 20 training centres around the UK

After 18 months of research QA finally found the solution for their desk requirements to suit their training room needs.

The biggest problem we faced was the time it took to change the room from an IT room to a standard teaching room. The other issue we faced was being able to change the classroom layout easily.

Folio listened to our requirements and through clear effective communication, they came up with the solution that satisfied our flexibility needs and also improve the efficiency of room changes.

With the ever evolving nature of our business, Folio were able to adapt and make amendments to the desks to improve our offering to our clients.

We have now installed these desks into four of our training centres with more to be installed through the year.

*Chris Godbold - Facilities Manager - QA Ltd*

# Folio are the largest supplier of Dual-Purpose

## HMS Sultan

Engineering training establishment for The Royal Navy.

Folio have been supplying desks to HMS Sultan for the last 12 years and to date have fitted out 52 classrooms

# Computer Desks to the Ministry of Defence

## Royal Signals

Folio have installed their Twin Screen Desks into 7 classrooms at their Blandford site.

### Folio have installations at:

RNAS Yeovilton (11 classrooms)  
Faselane Submarine Base  
RAF Halton  
RNAS Culdrose  
Met Office (5 classrooms)

**Client:** University of Oxford  
**Refurbishment of Evenlode Room**  
**Install Date:** September 2015

**Requirement:** Easy said the University same as last year. But we don't want full sixpence desks, well we do but only in the Centre of the classroom. We would like to have half sixpence desks around the outside of the classroom facing the walls. This will give us more space, oh can you also make the middle desk in the half sixpence rise and fall so students can sit or stand at the PC when working. These can also be used by wheel chair users. And one last thing can we have charging points in the centre of the sixpence desks for laptops and mobile phones?

Integrated laptop and phone chargers

Seated position

Standing position or wheelchair access

# Folio Dual-Purpose Computer Desks can be used in many different loactions in your school, including food technology classrooms

## Dartford Girls School

We have used the Compu-Desk 3 range of computer desks from Folio for our last five projects, the latest being the fit out of our two food technology rooms. Their desking solution works, is easy to use and makes the classrooms multi-functional.

*M Pickering - Dartford Grammar School for Girls*

# More locations

## Emmanuel School, London

Kidney-shaped desk giving them flexibility in the library.
